

TMF SILAGE CORN

TMF2L825

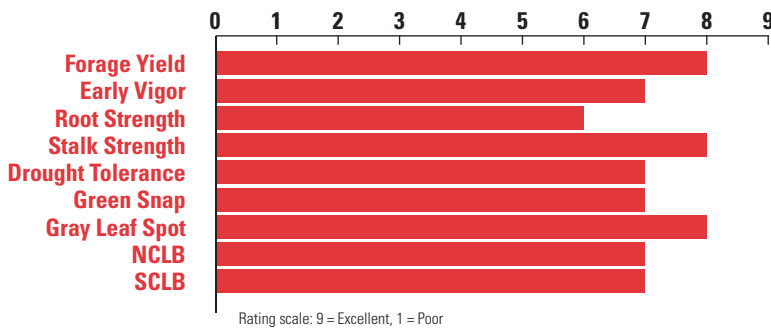

117 RM RANGE 114-118

KEY STRENGTHS

- TMF hybrid that combines Herculex® I *Insect Protection* with Roundup Ready® and LibertyLink® technologies.
- Excellent gray leaf spot tolerance will allow it to move into Eastern markets where high tonnage is top priority.
- Adapted to higher plant densities.
- Very tall plants with high ear placement and flex-ear style.
- Very good Goss's wilt and spider mite tolerance for western growing areas.

CHARACTERISTICS CHART

MANAGEMENT GUIDELINES

- Highly recommended for silage use within its adapted maturity.
- Good plant agronomics will support moderate-high to high plant densities, especially under irrigated production.
- Roundup Ready® and Ignite® herbicide technologies expand weed control options and provide an alternative for managing herbicide resistance.
- A strong fertility program for silage production is important to maximize tonnage and maintain the quality of the silage.
- Monitor harvest moisture closely as harvest approaches. Hybrids may be drier or wetter than physical appearance indicates.
- When storing TMF hybrids in a pile or a bunker, recommended moisture levels for harvesting range from 65 percent to 68 percent moisture; for bags, 62 percent to 68 percent.

SILAGE QUALITY

NFC Rating.....	6
Whole Plant Digestibility.....	7
NDF Digestibility.....	7
Digestable Dry Matter.....	7
Dairy-Beef Index.....	8/9

AGRONOMICS

GDUs to Mid-Silk.....	1485
Ear Type.....	Flexible
Plant Height.....	Very Tall
Stalk Drydown.....	Moderate
Kernel Texture.....	Moderate
Cob Color.....	Pink
Fungicide Response.....	Low

PRODUCT POSITIONING

Planting Date

Early.....	Highly Recommended
Late.....	Not Recommended

Crop Rotation

Continuous Corn.....	Recommended
Corn/Soybean.....	Highly Recommended

Tillage

Conventional.....	Highly Recommended
No-Till.....	Recommended

Irrigation

Full.....	Highly Recommended
Dryland (Ecofallow).....	Recommended

Soils

Marginal Fertility.....	Not Recommended
Poorly Drained.....	Not Recommended
Light (Sandy).....	Recommended
Highly Productive Soils.....	Highly Recommended

Population (Consult a Mycogen Seeds representative for specific recommendations on planting populations.)

Very Low.....	Not Recommended
Low.....	Recommended
Medium.....	Highly Recommended
High.....	Highly Recommended
Very High.....	Not Recommended
