

# TMF SILAGE CORN

## TMF2R737

112 RM RANGE 111-115

### KEY STRENGTHS

- Very good tonnage and digestibility.
- Very good silage corn eye appeal.
- Good foliar health.
- Broadly adapted.
- Good gray leaf spot tolerance.

### CHARACTERISTICS CHART

### MANAGEMENT GUIDELINES

- Recommended for silage, earlage and high-moisture corn use within its adapted maturity.
- Good choice for corn-on-corn acres — good tolerance to gray leaf spot.
- Performs best at moderate to high plant densities.
- Above- and below-ground insect protection provides consistent performance over years and environments.
- Bt and stacked Bt trait products that contain corn rootworm and corn borer resistance genes require the use of a refuge. Consult the appropriate Product Use Guide for specific refuge requirements.

**Ratings:** Mycogen Seeds utilizes a 9=Excellent, 1=Poor rating scale. GDU ratings calculated from planting date. Actual ratings based on best current information available and may be affected by changing environmental conditions. *Mycogen Seeds warrants that the seed sold by it conforms to the descriptions on accompanying labels within tolerances established or permitted by law. This warranty excludes and is in lieu of all other warranties, express or implied, including any warranty of merchantability or fitness for a particular purpose, which are hereby disclaimed.*

### SILAGE QUALITY

|                                |       |
|--------------------------------|-------|
| NFC Rating.....                | 8     |
| Whole Plant Digestibility..... | 8     |
| NDF Digestibility.....         | 9     |
| Digestable Dry Matter.....     | 8.5   |
| Dairy-Beef Index.....          | 8.5/9 |

### AGRONOMICS

|                         |             |
|-------------------------|-------------|
| GDUs to Mid-Silk.....   | 1460        |
| Ear Type.....           | Flexible    |
| Plant Height.....       | Medium/Tall |
| Stalk Drydown.....      | Moderate    |
| Kernel Texture.....     | Moderate    |
| Cob Color.....          | Red         |
| Fungicide Response..... | Medium      |

### PRODUCT POSITIONING

#### Planting Date

|            |                    |
|------------|--------------------|
| Early..... | Highly Recommended |
| Late.....  | Highly Recommended |

#### Crop Rotation

|                      |                    |
|----------------------|--------------------|
| Continuous Corn..... | Highly Recommended |
| Corn/Soybean.....    | Highly Recommended |

#### Tillage

|                   |                    |
|-------------------|--------------------|
| Conventional..... | Highly Recommended |
| No-Till.....      | Highly Recommended |

#### Irrigation

|                          |                    |
|--------------------------|--------------------|
| Full.....                | Highly Recommended |
| Dryland (Ecofallow)..... | Highly Recommended |

#### Soils

|                              |                    |
|------------------------------|--------------------|
| Marginal Fertility.....      | Not Recommended    |
| Poorly Drained.....          | Recommended        |
| Light (Sandy).....           | Recommended        |
| Highly Productive Soils..... | Highly Recommended |

#### Population (Consult a Mycogen Seeds representative for specific recommendations on planting populations.)

|                |                    |
|----------------|--------------------|
| Very Low.....  | Not Recommended    |
| Low.....       | Recommended        |
| Medium.....    | Highly Recommended |
| High.....      | Recommended        |
| Very High..... | Not Recommended    |
